Behavior after removal of a polyp

Patient:

Date of Birth:

Today during an endoscopy we removed a polyp during the examination.

The polyp(s) were located at a height of _____ and were _____ cm in size.

During the next 10 days, please watch out for the following signs:

Blood in your stool (blood in the toilet bowl) **bloody vomiting** or **a sudden abdominal pain** (with pressure on the abdominal wall).

If you notice such changes, please get in touch with us immediately -

Phone: **069/29925370** -

or after office hours contact:
